PROFESSIONAL SUMMARY

Detail-oriented Statistics graduate with expertise in data analytics, Power BI, Python development, AI-powered automation, NLP models, research systems, and core cybersecurity foundations. Skilled in building and deploying scalable web applications using machine learning models and modern web frameworks. Experienced in financial data analysis, data visualization, technical writing, SQL, security risk concepts, and AI-assisted solutions, with a strong commitment to delivering secure, real-world analytical solutions.

KEY SKILLS

Data Analysis & Visualization:	Microsoft Excel, Power BI, SQL, SPSS, Python; basic knowledge of R.
AI, NLP & Machine Learning:	Instruction-tuned transformers (Google FLAN-T5), prompt engineering, LLMs, Streamlit deployment, text generation pipelines.
Technical & Security:	Python for IT automation, Generative AI concepts, core cybersecurity principles, data protection practices.
Project & Soft Skills:	Planning, technical documentation, security awareness, critical thinking, cross-functional teamwork.
Languages:	English, Spanish, French (Multilingual proficiency).

WORK EXPERIENCE

Data Analyst Owerri, Imo State, Nigeria | Oct 2025 – Jul 2026

OCHE Microfinance Bank

- Analyzed financial transaction datasets and customer account records using Excel, SQL, and Power BI to optimize business operations.
- Designed interactive dashboards to track key performance indicators (KPIs), credit performance, and customer transaction trends.
- Evaluated portfolio performance data to identify operational insights, risk factors, and reporting discrepancies.
- Collaborated with cross-functional banking teams to generate weekly and monthly financial reports for management decision-making.

Assistant Lagos State, Nigeria | Feb 2021 – Aug 2021

VCOBEN Driving School

- Applied statistical methods to optimize resource utilization and operational scheduling.
- Developed data visualizations and analytical reports to support executive management in data-driven decision-making.

Intern (Planning and Statistics Department) Lagos State, Nigeria | Aug 2019 – Feb 2020

Federal Airport Authority of Nigeria

- Executed high-volume data entry using ADR16 and assisted in complex data analytics using Microsoft Excel.
- Collaborated within departmental teams to streamline workflow efficiency and reporting processes.
- Contributed to the preparation of comprehensive research reports and executive presentations.

TECHNICAL PROJECTS

ResearchGen AI — AI-Powered Research & Statistical Automation Platform [Live Demo](#)

Python, Streamlit, Machine Learning, NLP, Data Visualization

- Developed a full-stack AI-powered research automation platform using Python and Streamlit.
- Built features for automated proposal generation, literature review assistance, statistical analysis, and report generation.
- Integrated machine learning and NLP techniques for intelligent academic research support.
- Designed interactive dashboards for data visualization and integrated regression analysis, time series forecasting, and hypothesis testing modules.

Python, Streamlit, Google FLAN-T5, NLP, Transformers

- Built and deployed an AI-driven text generation application utilizing Google's instruction-tuned FLAN-T5 model.
- Engineered prompt structures and guardrails to produce sales-ready electronics product descriptions automatically.
- Designed a responsive Streamlit web interface for real-time inference and seamless cloud deployment.

EDUCATION

Federal University of Technology Owerri
Bachelor of Technology (B.Tech) in Statistics

Owerri, Nigeria | Jan 2018 – Oct 2025

CERTIFICATIONS

- **Foundations of Cybersecurity** — Google on Coursera (*Issued August 2026*)
- **Generative AI Training** — AI NOW BootCamp 2026 Incubator AI NOW (*Issued July 2026*)
- **Crash Course on Python** — IBM on Coursera (*Issued April 2026*)
- **IT Orientation Experience 2026** — IBM on Coursera (*Issued February 2026*)
- **Teamwork and Team Building** — Learnali™ (*Issued June 2021*)

PUBLICATIONS & ACHIEVEMENTS

- **Co-authored Research Publication:** "A Comparative Analysis on the Impact of Household Size on Economic Prosperity in Developing Countries", published in the *Asian Journal of Probability and Statistics* (2025).
- **Leadership:** Successfully led multiple student associations, achieving sustainable community outreach and academic initiatives.
